PROVIDING GOODS AND SERVICES TO PEOPLE WITH DISABILITIES

Ontario Northland is committed to excellence in serving all customers including people with disabilities and we will carry out our functions and responsibilities in the following areas:

Communication

We will communicate with people with disabilities in ways that take into account their disability.

This is achieved through training staff who communicate with customers and passengers on how to interact and communicate with people with various types of disabilities.

Ontario Northland also provides accessible formats and communication to support persons with disabilities at no cost in a timely manner. A request can be made by email to the Communications Department who will consult with the person making the request in determining the suitability of an accessible format or communications support.

Telephone services

We are committed to providing fully accessible telephone service to our customers. We will train staff to communicate with customers over the telephone in clear and plain language and to speak clearly and slowly.

We will offer to communicate with customers by email, TTY, and relay services if telephone communication is not suitable to their communication needs or is not available.

Assistive devices

At Ontario Northland, we are committed to serving people with disabilities who use assistive devices to obtain, use or benefit from our goods and services. We will ensure that our staff is trained and familiar with various assistive devices that may be used by customers and passengers with disabilities while accessing our goods or services.
