

1. RELATED REQUIREMENTS

- .1 Cash Allowances: Section 01 21 00.

2. DEFINITIONS

- .1 Utility: as used in this Section, “Utility” means Hydro One for the purpose of installing a new electrical service connection at select stations.

3. CONTRACTOR’S RESPONSIBILITIES

- .1 Contractor shall be responsible for connection of project service lines to Utility’s lines and sources, regardless of whether the required work is performed by Contractor’s own forces, Subcontractors, or Sub-Subcontractors, or by a Utility.
- .2 Coordinate service connections work. Make all necessary arrangements with, comply with requirements of, and cooperate fully with each Utility.
- .3 Cut, fit and patch Work of this Contract as required to fit or be received by work of each Utility.

4. UTILITY CHARGES

- .1 The service connection charges, if any, levied by each Utility are included under the cash allowance for service connections specified in Section 01 21 00 Cash Allowances.

5. SERVICE CONNECTIONS

- .1 Electrical power:
 - .1 Utility shall: provide the utility services per Hydro One New Service Request – Builders and Contractors (<https://www.hydroone.com/business-services/builders-and-contractors>)
 - .2 Contractor shall: Undertake the contractor works and obligations required under the Hydro One New Service Request – Builders and Contractors (<https://www.hydroone.com/business-services/builders-and-contractors>)
